

CHRONICLES OF NPSI, CHENNAI

Art helps see connections and brings a more coherent meaning to our world

-Earnest Boyer

It is February and it is the time when the children of our school proudly showcase the product of their yearlong travails.

As integral part of their curriculum our students follow a well-planned study on music, art and craft. A day at the end of every academic session is year marked to display the work that the students have put in during their art and music classes. The students of grades 1-5 dazzled everyone with their stellar performance at Ganamrutham, the music fete. Their grasp on the tunes, swaras and bhava was appreciated by one and all.

Paints, colours and styles were teased and tweaked to tell myriad stories at Art Infinity. The students of the school, with their display of the various art forms of the world like Tanjore painting, Patachitra, Aboriginal art, African art and many more, conveyed that art is not just a form of expression but a study of the rich culture and tradition of the place it represents.

With the craft items they created during their SUPW classes and other useful items created from waste, the students of grade 6 ventured into the market on a business footing. The Young Entrepreneurship Programme of the school gave them an opportunity to plan, produce and sell their wares on Market Day. The profits earned was donated to a valuable cause.

Stories enthrall the young and the old. The children especially cherish their time with their story books. What can give a child more joy than spinning his own tale? The students of grade 4 released their books on Young Authors Day. Their play with words was a delight to behold.

A Book fair held in the premises by the Scholastic Publication proved a great motivation for the students to browse different genres and pick out certain collections to read. A story time was organized for the students of grade 1 and 2 which they enjoyed spellbound.

A special workshop was conducted by the SaPa foundation for the students of grade 5. This was an interactive session on music, engaging the students on ideas and concepts of both Indian and Western music.

Science is the very essence of life. Science Engineering and Design programme conducted in school is a school initiative for the students of grade 7 and 8 to rekindle their inquisitiveness on science, engineering and design.

A science week was also celebrated wherein the students from grades 1- 8 covered topics that piqued their interests and performed several interesting experiments.

The kindergartners undertook a trip to a nursery to touch, feel and observe the various types of plants. They each returned home with a sapling they could nurture and learn from.

The lessons in the textbooks often lead a child to question and explore. The students of grade 3 decided to try their culinary skills at making dosa, an imitation of their lesson.

Our students participated enthusiastically and won many prizes at the inter school competitions.

Chyasallis, held at AKC Memorial School is where our students won the third position at ADZAP

At Science O Vistas the first and the third place at science exhibits and poster making respectively, was bagged by our students.

In the RSIC summer program conducted by IIT Madras our grade 11 students, Aditya.H. Iyer and Srisneha Mettu have been shortlisted for their preliminary interview.

It has always been our endeavor to provide ample aid to our faculties to help them keep abreast with the changing trends in the field of education. One such initiative was the inspiring and thought-provoking lecture by Prof Rajeev Sharma. He is the author of the book “Not Just Grades: Schools That Educate Differently”. His talk provoked a very useful brain storming and a Q & A session.

The students of grades 9 -12 have commenced their Board examinations. Our prayers and good wishes are always with them. This year our school has also been given the privilege of hosting the Class X ICSE Board examinations.

Intensive revisions have been scheduled for the upcoming month to help the students ace their yearend examinations.

*Warm Regards
Principal*
