## CHRONICLES OF NPSI, CHENNAI

*There are some things that we cannot buy, one of such thing is our childhood.*

*The month of November, may seem like just another month of the year, yet it is this month that sets the heart of every child a flutter with anticipation in lieu of the festivities in store for them on the 14<sup>th</sup> of November, Children's Day.*

*The faculty at NPSI, Chennai, rose to occasion and staged a variety of entertaining and informative programme to honour and cherish the children in their care. Puppet show, dance, music, debate and games were among the many events performed by the teachers on this day.*

*It is our duty not just to bring cheer to our students but also to arm them with knowledge. To this extent two key note speakers were invited to address the senior students. Mr H.S.Mani delivered an informative talk on 'Eclipse', while Dr Sowmya from Global Hospital brought about an "awareness on Dengue". Paramedic training was also among the skill imparted on this day.*

*Fast on the heels of the Children's Day celebration came along another, Mélap – The Language Day. The languages other than English, practiced in the premises were showcased through enchanting programmes. The students espoused their mastery in not just the languages under their study but also in those that they come into contact with in the school atmosphere.*

*The students of Grade 3 chose to depict the treasures of some states of our nation. Goa, West Bengal, Tamil Nadu and Punjab were their focus for the class assemblies, wherein they portrayed the culture and celebrated the greatness of their chosen state.*

*Field trips form an integral part of an all-round development of the child. This builds camaraderie and gives the students a perspective outside the classroom. The students of Grade 10 visited the cultural environs of Mahabalipuram, while the students of Grade 9 ventured into the beautiful boulevards of the former French colony, Puducherry. The curious minds of Grade 5 explored the Science expo at NPS Gopalpuram.*

*It is with great pride that we share with you the news that one of our students, Amirtha Vijayasankar of Grade 7 has been selected for the finals in the Young Environmental Scientist Programme for her project “Turning thermocol to fuel.*

*On the field our students actively participated at the interschool throw ball tournament and in the Chennai district athletic association.*

*The academic tests – unit test 3 and examinations – preparatory 1, were among the routine rigueur that the students endured as part of their curriculum.*

*The month of December promises to bring along many events and opportunities for our young ones.*

*Warm Regards*

*Principal*
